### Course Update

As everyone knows we have had a lot of rain lately. The maintenance crew is doing their very best to keep everything in shape. The greens are starting to look much better. We have root knot nematodes on some of the greens on the front and they were sprayed in the morning of 6/20. The back nine fairways were sprayed last week, and we hope to get the front sprayed this week. As soon as the weather allows, we will be fertilizing the fairways and the driving range.

As always, thanks for choosing Green Oaks as your golfing home.

Billy Fikes,

Board President
