Dear Members of Green Oaks Golf Course,

We would like to welcome the new members to the course. Let us make them feel welcome and a part of the Green Oaks family. The winter is coming off the ground and the green is returning. March 31 – July 30 is our new membership drive at \$125 per month with a one year contract. Tell your friends. Our tournament schedule is complete and you can check on the dates and times at the clubhouse or on Facebook. We are ordering new signs that go on the tee boxes for members and businesses to put their info and numbers on. These are now on sale for \$300 for members and \$400 for non-members. Contact a board member for more information. Now for the good part, most people understand that the cost of inflation has risen over 70% in the last few years, which means the cost of gasoline, electricity, parts and supplies have also increased. Because of these increases, we are instituting the following:

Rate increases effective the 1st of May:

Monthly fees will be raised to \$130 with an additional \$20 for cart sheds.

Monthly fees with cart plan will be increased to \$160.

Active-duty military rate will be \$120 and an additional \$20 for the cart plan.

Junior memberships will be increased by \$5 with an additional charge for a cart plan. ******All new members still under 1 year contracts will remain at the current rate until the year contract is up, then the increase will take effect.**

Green Fees

9 holes with cart - \$30

18 Holes with cart - \$40

18 hole without cart - \$20

Twilight hours will be from 4:30 PM – 7 PM

Walking - \$15,

9 Holes with cart \$25 18 Holes with cart \$35

No course can survive without an overall increase to help defer the cost of inflation. All members of the cart plan will need to sign a copy of the cart plan in the front office, which outlines the usage of Green Oaks carts. The carts are the property of Green Oaks and will be utilized in the way that best suits the general membership. While we understand that these increases will not meet favorable considerations by some of the members, It is a necessary part to maintain the golf course, equipment and personnel in the current economy.

Thank you all and hit em Straight,

President of the Board of Directors

Nathan Fast
