From the Course Superintendent:

The weather this time of the year necessitates that we not change the hole locations on the greens nearly as often as usual because the old hole will not repair themselves. So please be careful when you remove your ball or the flag from the hole to lessen the damage. **DO NOT** hit balls or walk on the greens when frost is present. The damage may not be noticeable now but it will be in the spring when everyone want to enjoy the course. So be considerate of others and be careful. Once again, **STAY ON THE CART PATHS** when the cart paths only sign is in effect. We can not over stress the damage that a few people do to our course by

their inconsiderate actions. The course belongs to all of use not just a few who think they are special.

Thank you, Wayne
