

Green Oaks Golf Club

July 2007

General Membership News: A warm welcome to the following new members:

Chris Wright, Jason Harrison, Roger Hinshaw, Lanille Brown, Georgia Williams, and Craig Darner

Thank you for making Green Oaks your golf home. Every effort will be made to give you a quality golf course to play on and a pleasant environment to enjoy our other facilities.

A fond farewell to our past members, who elected to resign their membership in Green Oaks. Dave Barham, Gregory Harrell, Tom Comeau, Tracy Pittman, David Crocker and Jeremy Slade.

Volunteers: My plea for volunteers has fallen upon deaf ears. Thanks for volunteering David Johnson. I appreciate you. Again, folks, remember- it's your Golf Club. The money you make or save Green Oaks will make a difference.

MANAGEMENT: Our hamburger/French Fry concession is doing only fair. Come on members, you ask for them. Buy them and enjoy them. If the concession starts losing money and goes on life support its bye bye hamburgers and fries. It is totally up to you.

TOURNAMENTS: we have two tournaments this month:

Betsy Drane Aug 4-5

3 Man Scramble Aug 11 - 12

Sign up and support your club. The money these tournaments make enables Green Oaks to continue our every reasonable dues. Again let me remind you - It's up to you.

Thanks Gene

From the Course Superintendent: The bountiful rain fall this past month has been most welcome. The course looks great but it sure is keeping the mowers on the move. Please avoid the wet places, these areas are easy to identify, they look like standing water or muddy looking areas where you would not want to drive your car for fear of getting it dirty or stuck. When you drive into these areas, you leave ruts that don't recover well and then you complain when your ball lands in one. Be considerate of others and please stay on the cart paths as much as possible. Pay attention to the cart path signs and stay on the paths or go home and save the course for the people who do. A little exercise will do you good.

Thank you, Wayne
